Speakers

Sirohi Gupta Kumar '26

President, Student Government Association

Sirohi Kumar is a double major in government and statistics, hailing from Bar Harbor, Maine. This year, she was president of the Student Government Association (SGA), and previously served as chair of the organization's Curriculum Committee. As SGA president, Kumar's administration focused on increasing the connections between the Smith campus and the city of Northampton. Their other initiative was a collaboration with Smith Students for Reproductive Justice to indefinitely fund and distribute free menstrual products in key academic buildings across Smith's campus. A proud Mainer, Kumar is planning to return to her home state after graduation to work on political campaigns, before moving to Washington, D.C., where she hopes to fulfill her mission of creating systemic progressive change.

Nadira Talayee '26

Senior Class President and Class of 2026 Alumnae Class President

Nadira Talayee is from Kabul, Afghanistan. She is double majoring in economics and statistical and data sciences. At Smith, Talayee enjoys helping first-years think through selecting their courses and choosing a major. As a peer adviser and student recruiting assistant for the Lazarus Center, she helps students with job search skills and fosters connections between students and employers. At the Conway Center, Talayee loves taking part in entrepreneurial challenges, helping the center with data analytics, and connecting students with the resources at the center.

An avid runner, Talayee co-founded the Smith Running Club as a first-year with another friend and led weekly runs. She is an ultra-marathoner and an ambassador for Free to Run—a nonprofit that empowers women through sports in conflict-affected and high-risk regions, including Afghanistan, Iraq, and Palestine.

After Smith, Talayee will be joining a hedge fund accounting firm as a fund accountant. She is passionate about applying her analytical and personal skills to the world of investment and wealth management.

Sarah Willie-LeBreton

President, Smith College

Sarah Willie-LeBreton is the 12th president of Smith College. She earned a bachelor of arts degree from Haverford College and master's and doctoral degrees from Northwestern University, all in sociology. After teaching at Colby and Bard colleges in tenure-track appointments, she was tenured at Swarthmore, where she served as coordinator of the Black Studies Program and chair of the Department of Sociology and Anthropology for 17 years. She was appointed as provost and dean of the faculty at Swarthmore in 2018 and served in that role until 2023. An accomplished administrator, scholar, and sociologist who studies social inequality and race and ethnicity, Willie-LeBreton is known for her commitment to the liberal arts, strengthening community, and energizing the work of equity and inclusion.

Commencement Speakers

Carol Hillman '49

Environmental Steward and Global Early Childhood Education Leader

Carol Hillman '49 is a lifelong educator and environmental steward whose work has deeply influenced early childhood education on local and global scales. Guided by two core passions—nurturing young minds and tending the natural environment—Hillman has spent decades bridging the gap between the classroom and the land.

Her pedagogical journey began at The Ethical Culture Society of Westchester Nursery School, where she served for 20 years as the lead teacher for 4-year-olds. This experience informed her extensive bibliography, which includes foundational titles such as *Teaching 4-Year-Olds: A Personal Journey*, *Before the School Bell Rings*, *Mentoring Early Childhood Educators*, and *A Sense of Place*. Beyond the classroom, Hillman's academic influence expanded through roles as an adjunct professor at Westchester Community College, an adjunct lecturer at Manhattanville University (formerly Manhattanville College), and as a consultant in staff development.

In 1996, Hillman was instrumental in reintroducing Bank Street's Long Trip—an immersive annual program that has since led 22 national and international expeditions to explore complex social,

environmental, and educational issues. Her leadership extends to The Early Childhood Wisdom Initiative, which she co-founded with Bonnie and Roger Neugebauer. This initiative unites seasoned educators in their 70s, 80s, and 90s to mentor the next generation, a concept that has grown into a worldwide leadership team of 23 members.

Her commitment to Bank Street College of Education is reflected in her service as an alumni trustee and her receipt of a Distinguished Service Award in 2018 and an honorary doctorate in 2022. Currently, in western Massachusetts, Hillman has turned her educational philosophy toward the soil as the owner of New Salem Preserves and New Salem Cider. In 1968 she purchased an 18th-century salt box home and orchard that she has since restored and transformed into a vital, place-based learning environment for children and the community.

Dawn Staley

Naismith Memorial Basketball Hall of Fame and Women's Basketball Hall of Fame Inductee, Olympian, and Championship Coach of the South Carolina Gamecocks Women's Basketball Team

Dawn Staley is a towering figure in basketball history, currently serving as the head coach of the University of South Carolina. Since arriving in 2008, she has transformed the Gamecocks into a perennial powerhouse, securing NCAA National Championships in 2017, 2022, and 2024 and leading the team to seven Final Fours in the last 10 tournaments. A four-time National Coach of the Year, Staley holds the distinction of being the only Black head coach—men's or women's—to win multiple national titles and was the first Black head coach of the USA Basketball Senior National Team.

Staley's leadership is defined by unprecedented consistency. Under her guidance, South Carolina has ranked in the AP Top 25 for over 260 consecutive weeks and maintained the No. 1 spot for 86 total weeks. Her dominance in the Southeastern Conference is equally staggering, boasting nine regular-season championships, nine tournament titles, and a conference-record 57-game win streak. With a career winning percentage of .778, she is the program's all-time winningest coach and the fastest to reach 200 wins at the university.

Beyond the collegiate ranks, Staley is a global icon. An inductee of the Naismith Memorial, Women's Basketball, and FIBA Hall of Fames, she led the U.S. Women's National Team to gold at the 2020 Tokyo

Olympics and the 2018 World Cup. Her impact extends to professional development—she’s coached 18 WNBA Draft selections, including 11 first-round picks and two No. 1 overall selections. From restoring programs to national prominence to mentoring three-time WNBA MVP A’ja Wilson, Staley’s legacy as a transformative leader and elite tactician is firmly cemented in the annals of sport.

Chizuko Ueno

Pioneering Sociologist and Feminist Theorist

Born in 1948 in Japan’s Toyama Prefecture, Chizuko Ueno is a pioneering sociologist and feminist theorist whose scholarship has fundamentally reshaped global discourse on gender, family, and social structures. Currently a professor emerita at the University of Tokyo, Ueno’s academic journey began at Kyoto University, where she completed a doctoral course in sociology. Her career has since spanned the globe, with visiting professorships at prestigious institutions that include the University of Bonn, the University of British Columbia, Barnard College at Columbia University, and El Colegio de Mexico.

As a specialist in feminist theory and sexuality, Ueno’s bibliography contains several of the most influential works in the field. Her seminal books—*Patriarchy and Capitalism* and *Nationalism and Gender*—challenged systemic inequalities, while *Misogyny* became a cultural touchstone. Beyond theory, she has pivoted her research toward the sociology of care, focusing on Japan’s aging population. A bestselling series on aging women—including *Old Days of Single Ladies* and *The End of Life of Old Single Ladies*—reflects her ability to connect rigorous academic inquiry with the lived experiences of the elderly. Her latest 2025 publication, *Philosophy of Anti-Anti-Aging*, continues this critical exploration of the life cycle.

Ueno’s impact has been felt on both the institutional and grassroots levels. She serves as the chief director of the nonprofit organization Women’s Action Network and the Ueno Chizuko Foundation, and has been a member of the Science Council of Japan and the American Academy of Arts and Sciences. Her contributions have earned her the Suntory Prize, the Asahi Award, and the Finnish government’s Hänn Honour. Recognized in 2025 as one of *Time* magazine’s 100 most influential people, Ueno remains a formidable force whose work continues to inspire a new generation of feminist activists across Asia and the West.

Academic Regalia

At Smith today, caps and gowns are worn at Commencement to symbolize unity and academic achievement. Academic dress is believed to have originated at medieval British universities. At Smith's first Commencement in 1879, caps and gowns were considered ill-suited to the progressive spirit of the college. Over time, however, traditional academic regalia came into favor.

Gowns are usually designed according to the degree held by the wearer. Bachelor's gowns have long, pointed sleeves; master's gowns have fuller, closed sleeves with a slit at the arm or wrist. Doctor's robes are often worn open and have velvet edging down the front and three velvet bars across each sleeve. The length of the hood and the width of its velvet border indicate the wearer's highest academic degree.

Colors designate the wearer's college or university and field of study. The color of the sleeve bars and of the velvet on the hood indicates the academic field, distinguished as follows: white for arts and letters, light blue for education, brown for fine arts, pink for music, dark blue for philosophy, and yellow for science. The degree-granting institution is traditionally represented by the color of the hood's satin lining. Robe color and cap shape may also designate the college or university. Some Smith faculty members wear the Charis medal, which is awarded to those who have served on the faculty for 25 years or more.

The Smith College Mace

At Commencement, the Smith College mace is carried at the head of the academic procession. It was given to the college in honor of Florence Macdonald '32 by the three presidents of the college and the six women who chaired the board of trustees during her years of service as secretary to the president at Smith.

Fashioned chiefly from cherry and maple woods, the mace has Celtic-inspired decoration. Carved on one side of the caput, or head, is the Macdonald crest and on the other side are the Grécourt Gates. The crowning ornament of the caput is inlaid with end-grain boxwood and bears the dedication to Florence Macdonald as well as the college motto—"to virtue, knowledge" (2 Peter 1:5, King James version)—inscribed in classical Greek. The names of all the presidents of Smith College have been cut into the shaft.

The mace was designed and fashioned by noted sculptor and printmaker Elliot M. Offner, who taught at Smith from 1960 until his retirement in 2004. The mace is always used to open formal ceremonies at Smith.
